

Landscaping & Grounds Maintenance

A cut **ABOVE**
the rest

RELIABLE | RESPONSIVE | CARING

SOLUTIONS **SK**

A Stockport Council Company

At Solutions SK we pride ourselves on being a cut above the rest. Our services range from large contracted urban schemes to individual bespoke, high specification projects.

Solutions SK has an impressive record in the management of open spaces, sports facilities and urban areas. We have a wide and varied customer base including Stockport Council, private schools, sports clubs, housing associations and healthcare providers.

We value our customers and due to our close relationships many have developed into long term partnerships which have led to innovative ways of working. This has resulted in both partners reaping the rewards of cost effective services and increased quality of service.

We have a highly skilled and trained workforce who can design, install and maintain any type of landscaping scheme, from roadside verges and shrubs to one off landscaping projects for customers.

Some of the services we can provide include:

- **Landscape design and installation**
- **Planned horticultural maintenance**
- **All types of grass cutting, scarifying, edging and treatments of public parks to formal lawns**
- **Bed and shrubbery planting/pruning**
- **Maintenance of sports grounds including line marking**
- **Arboriculture inspections and operations including tree crowning, thinning and felling**
- **Trimming and shaping ornamental trees and shrubs**
- **Habitat and vegetation management**

We can also offer a woodland and forestry management service. Using a wide range of specialised equipment, our trained Arborists can be called upon to provide a report for specialised activities such as tree felling, section felling, stump removal, crown lifting, crown reduction, thinning, pruning, re-shaping and pollarding. On completion of the works, the site will be cleared of all cuttings which are recycled in line with our commitment to the environmental standard ISO 14001:2004.

If you would like to know anything, from how you can have a tree trimmed to design of a full landscaping service, contact us using the details below. We can provide quotes to suit all budgets and for projects of any size.
