SOLUTIONS SK

A Stockport Council Company

Over 30 years experience of delivering Street Lighting services means Solutions SK's Street Lighting department has the ability and experience to deliver high quality, cost effective engineering solutions for our clients.

We are not just Street Lighting, we have a highly skilled and trained workforce who can design, install and maintain any type of lighting scheme, from the 37000 street lights, bollards and signs we look after for Stockport Council, to architectural features such as the Stockport Railway Viaduct, one of the largest brick structures in Europe.

Our design team has worked with an extensive portfolio of clients including:

- Local authorities
- Charities
- Housing associations
- Schools and colleges
- Healthcare providers
- Private sector businesses

Also working with most of the Greater Manchester local authorities, we provide imaginative and innovative, cost effective, energy efficient solutions to customer requirements. All our services are designed installed and maintained by our trained, customer focused workforce.

Using state of the art vehicles and equipment, we provide a number of lighting services including installation and routine maintenance of various lighting types such as:

- Feature lighting
- Fibre optic lighting
- Floodlighting
- Solar power lighting
- Security lighting
- Housing developments
- Car parks
- Decorative seasonal lighting

Solutions SK can undertake project management of your scheme, incorporating technical advice, design, installation and ongoing maintenance.

We have seen many changes in lighting technologies and our commitment to the environmental standard ISO 14001:2004 ensures all our work is focused on creating a greener, cleaner environment by reducing energy consumption, light pollution and recycling of all waste products.

Our Highways and Civil Engineering department can also deliver specialist paving, draining/gully cleansing and carriageway surfacing to name a few. Our on-site Sign Shop can design, manufacture and erect various types of signage to client specifications.

An important aspect of our service to you is the aftercare you will receive. All our employees are fully trained within their role; electrically qualified personnel are available on a 365 day, 24 hour emergency call out service to ensure a fast response to any dangerous hazards or incidents. We can also ensure that high profile and secure sites will have adequate lighting.

We are experienced in providing services and projects ranging from those of a smaller scale, up to £4 million.

Call us now for professional, specialist advice on your lighting requirements.
