resources

RELIABLE | RESPONSIVE | CARING

SOLUTIONS SK

A Stockport Council Company

Solutions SK provides a range of specialised security services. From installation of alarm systems to regular night patrols we can devise a package to suit your security needs.

Protecting Your Business

When it comes to protecting your property or business premises we can devise a bespoke package to give you security and total peace of mind.

Our CCTV systems offer a wide range of applications and benefits 24 hours a day. These systems can aid and monitor stock, machinery, personnel, visitors, access control, and health and safety requirements.

Our highly trained mobile patrols and uniformed Security Officers can provide visits to your premises each night, ensuring your business is safe while you get a good nights sleep. For peace of mind and to minimise disruption to you, we offer a key holding service and respond to alarms within 20 minutes. All our Security Officers and Control Centre Operators are trained to a nationally recognised standard in Security Operations, Conflict Management and are licensed by the Security Industry Authority (SIA).

CCTV Monitoring & Alarm Receiving Centre (ARC)

Our extensive CCTV Monitoring & Alarm Receiving centre based in the Stockport region provides around the clock 24 hour observation. We can attend incidents or events with our uniformed patrols and will respond swiftly to events triggered by integrated motion or other sensor alarms.

During any incident or event where an alarm has been triggered and received at the ARC, a highly trained alarm engineer will respond swiftly, usually within 4 hours, to ensure continuing capability of the system and full protection of your property.

With our intelligently linked remote monitoring, our CCTV can also prevent crime with full audio facilities, which enables our operators to give warnings to potential attackers or assistance to staff, customers and other visitors.

In addition to detector activated CCTV, we can offer a number of building management and bespoke services to our customers by remotely controlling gates and access barriers via the CCTV transmission equipment.

Reliable Security Alarm Service

At Solutions SK we can offer a fast, efficient and reliable security alarm service. We have a team of engineers dedicated to installation, commissioning, maintenance and repair of CCTV, intruder & fire alarms, emergency lighting, door access and nurse call systems. We use a number of leading security manufacturers and suppliers, which ensures that you will get the most up to date bespoke package and also be assured of a first rate installation and maintenance programme. We also offer an out-of-hours service with swift response within 4 hours, to ensure continuing protection and effectiveness using our systems.

The Police and Protecting Our Community/ACPO

As a testimony of our operational levels of competency with security and CCTV, our Security Service works very closely with Greater Manchester Police as an active member of the Safer Stockport Partnership. Solutions SK adheres to current Association of Chief Police Officers (ACPO) policy and fully comply with this standard.

We can provide installations for industrial and commercial premises, schools, colleges and listed/graded buildings. Our tailored security services are available 24 hours a day, 365 days a year and all work is carried out in accordance with British and European Standards.

All our systems are of the highest quality, specified and installed by skilled technicians and designed to meet your requirements and the Security Systems Alarms Inspection Board standards (SSAIB).

To ensure your stock or building is safe, give our team a call. We will survey your property, give you expert advice on security, fire risk, any safety procedures and help you work within your budget.
