Security Services for Schools

Tel: 01663 734030
www.1stalarmsecurity.co.uk

Our Managing Director has more than 30 years experience working in the security industry, providing specialist advice and support to the public sector on a broad range of security products and services.

We are a Security Systems and Alarms Inspection Board (SSAIB) certified company. This gives our customers the assurance that we are able to demonstrate and deliver technical and managerial competence throughout our business. In addition to this we are registered installers with Greater Manchester Police, Derbyshire and Cheshire Constabularies.

1st Alarm Security employees are of the highest calibre and integrity. We undertake pre-employment screening with the National Security Screening Agency (NSSA) to the requirements of BS 7858. Additionally we carry out Criminal Records Bureau and Police checks in accordance with the Association of Chief Police Officers (ACPO) policy.

At 1st Alarm Security Limited we specialise in providing services to Schools, Colleges, and Academies. We offer a "one stop shop" for all your security needs.

Our broad range of services include maintenance of intruder alarms, CCTV, door access systems, security lighting, intruder and fire alarm monitoring, key holding and mobile response. Our services are fully integrated and operate seamlessly to provide you with the very best in service.

We are highly experienced and committed to providing services to schools and go the extra mile to add value wherever possible.

We have experience in servicing and maintaining all types of intruder alarms, CCTV and door entry systems. Even if you are not contracted to us we will happily provide you with a quotation for maintaining your intruder alarm or repair to your CCTV or door entry system.

We monitor intruder and fire alarms through our appointed National Security Inspectorate (NSI) Gold accredited Alarm Receiving Centre (ARC) and utilise the very latest Dualcom GPRS technology.

Key Holding & Alarm Response

We provide key holding and response to alarm activations 7 days a week, 365 days a year, eliminating the risk to your employees of intruder confrontation or next day fatigue. Security officers are in contact with the Alarm Receiving Centre (ARC) and if necessary will alert the Police or other emergency services. In the event of an alarm system fault the Officer will immediately notify the 1st Alarm Security Engineer.
